1. Complete the following organizer using the words/phrases below:

<p>Largest</p>  <p>Smallest</p>	Ecological Levels	Definition:	Example:

Note: The words and phrases are all out of order!

Biosphere	one	Earth land, air and water
Organism	group of ecosystems with the same climate	Desert
Population	group of same species in same area	AAA + BBB + CCC + non-living
Community	different populations in same area	AAA + BBB + CCC
Ecosystem	all communities and nonliving/abiotic	AAA
Biomes	All regions of earth	A

2. Create a mnemonic to remember the order of ecological organization.
